

LED LIGHT BOX INSTRUCTIONS

CONTENTS:

1-FRAMED BACKLIT BOX

1-SEMI-RIGID CLEAR PLASTIC PROTECTIVE SHEET
(HOLDS THE GRAPHIC FLAT AGAINST BACKLIT BOX)

1-ELECTRICAL CORD & PLUG

STEP 1:

Notice where the electrical cord is coming out of the frame back. This is the bottom of the frame. Lay the Backlit Box light on a flat surface.

STEP 2:

Open frame by using your fingers, slide them under the frame and lift away from the light. Do this to all four sides of the frame.

STEP 3:

Remove the semi-rigid clear plastic protective sheet from the face of the light. **SAVE!** You'll be inserting this back in later. Remember to peel-off the protective film from the semi-rigid clear plastic sheet.

STEP 4:

Insert your backlit sign into the frame by first placing the bottom edge of the sign into the bottom of the frame.

STEP 5:

Insert the semi-rigid clear plastic protective sheet on top of the graphic

STEP 6:

Snap the bottom part of the frame closed. Next do the same process to both sides and finish with the top.

STEP 7:

Hanging the Light Box on a Wall or from the Ceiling

- The Backlit Box can be hung vertically or horizontally. Use the hanging brackets on the back of the Backlit box frame. Use nails, screws or hangers to mount the Backlit Box on a wall..

- Use the brackets to hang the Backlit Box from the ceiling
- Use the Backlit Box banner stand adaptor (HW1535619) to mount to a Banner Stand (HW1141219)

MOUNTING A LIGHT BOX FRAME TO A BANNER STAND

CONTENTS:

2-SPADE SCREWS (1/4-20 X 12")

2-THUMB NUTS (1/4-20)

1-BLACK 'L' BRACKET (13.5"X7/8"X5/8")

ATTACHING THE BRACKET TO THE LIGHT BOX FRAME

STEP 1:

Open the top of the frame. Inside you will see two holes through the back of the frame. Place a Spade Screw through each of these holes. The Spade Screw threads will extend out the back of the Light Box Frame

STEP 2:

On the back side of the frame, slide the 'L' bracket over the threads of the Spade Screws. Place the "shelf" of the 'L' facing outward. Place a Thumb Nut on each of the Spade Screws and tighten to secure the 'L' bracket to the back of the frame.

ATTACHING FRAME WITH BRACKET TO BANNER STAND

STEP 1:

Remove the Thumb Screw from the top of the banner stand pole. Set the 'L' bracket on top of the pole. Insert the Thumb Screw through the bracket and screw securely back into the pole.

STEP 2:

The bottom of the LED Light Frame will rest on top of the lower banner pole bracket for support.
